

## 2006 CIRP FRESHMAN SURVEY DATA SERVICES

In addition to the Institutional Profile and copy of our report on the national results you receive as part of your participation in the CIRP Freshman Survey, HERI can provide additional data services for a nominal fee. All requested files, reports, and resources will be delivered in electronic form via e-mail. Following is the data service information and the order form for specific services.

### **DATA FILE**

**COST: \$75.00 + \$0.10 PER STUDENT RECORD**

You may order a “raw data” file containing the individual responses of all participating students at your institution. The data are arranged in a fixed-field text format so that they may be accessible to the widest possible range of commercial statistical and data base programs, and for merging with locally held data bases.

For your convenience, a set of SPSS specifications is also included. These specifications define the data layout, provide labels for each questionnaire item and response, and compute standard recodes used in the production of your Institutional Profile. Because the CIRP Freshman Survey data file contains nearly 300 variables, these specifications account for well over half of the effort required in conducting SPSS analyses.

The Data File will contain codes identifying subgroups you may have specified through the “Standard Breakout” option and/or the two GROUP CODE fields on the survey instrument. It will also contain students’ Social Security Number (or local institutional ID) provided the student gave HERI permission to release it to you.

### **Early Delivery**

**Additional Cost: \$75.00**

HERI will start fulfilling Data Services orders for the 2006 CIRP Freshman Survey in January, 2007. However, if you returned your completed surveys to our Scanning Center by September 22, 2006, we can produce your Data File in early-to mid-November.

### **Pre-Formatted Data File**

**Additional Cost: \$25.00**

HERI now offers pre-formatted data files. Instead of fixed-field format, you can order your data pre-formatted as in SPSS, Stata, SAS, MatLab, Fox Pro, or Statistica file formats. Contact our office if your preferred file format is not listed on this form.

### **REPORT ON SPREADSHEET (ROS)**

**COST: \$25.00**

You may order some or all of the reports in your CIRP Freshman Survey Institutional Profile as EXCEL spreadsheets. These spreadsheets, identical in format to the paper reports you receive, make easy the task of creating graphs, tables, and other “user-friendly” reports. The standard Report on Spreadsheet includes separate spreadsheets for: 1) all first-time full-time freshmen and; 2) all other respondents (part-time students, transfer students, and all respondents).

### **Standard Breakout Spreadsheets**

**Additional Cost: \$2.50 per Spreadsheet**

If you used the Standard Breakout option (physically dividing your completed surveys into 2-8 groups) and want Reports on Spreadsheet for your breakout groups, you may order them for an additional fee.

### **Additional Comparison Groups**

**Additional Cost: \$5.00 per comparison group**

The standard CIRP Freshman Survey Institutional Profile that you receive displays your results with those of two comparison groups determined by the Stratification Cell to which HERI has assigned your institution. You may add to your ROS results as many as four ADDITIONAL comparison groups from the 37 groups noted on page 4 of this document.

### **GROUP CODE REPORT** (formerly “Special Breakout Report”)

**COST: \$65.00 PLUS \$2.50 PER GROUP**

The Group Code Report provides Institutional Profiles based on each group code specified in the two “GROUP CODE” grids on the first page of the CIRP Freshman Survey. Up to 95 separate reports can be generated from each Group Code grid, as well as a summary report for all respondents at your institution. This report is delivered in spreadsheet format. (Please note that Group Code Reports are only available for those institutions that used the GROUP CODE grids. Institutions using the Standard Breakout groups should order a REPORT ON SPREADSHEET.)

## 2006 CIRP FRESHMAN SURVEY DATA SERVICES

### PEER GROUP REPORT

**COST: \$65.00 PLUS \$5 PER INSTITUTION INCLUDED**

The two comparison groups included in your CIRP Freshman Survey Institutional Profile are determined by the Stratification Cell assigned to your institution by HERI (for more information about Stratification Cells, see Appendix A in our annual report on the CIRP, [The American Freshman](#)). However, you may wish to compare your CIRP Freshman Survey results to a different group of institutional peers or even to an aspirant group of institutions. Per your request, HERI can generate a special profile comparing your institution's results to the aggregated responses from any five or more participating institutions of your choice. The Peer Group Report is delivered in spreadsheet format and is virtually identical in appearance to an Institutional Profile report.

**The following Data Services are available from HERI but cannot be ordered using this form. Contact HERI at [heridata@ucla.edu](mailto:heridata@ucla.edu) or call 310-825-1925 for further information or to place an order.**

### DATA MERGE

**COST: \$75.00 OR \$250.00**

Individual records in a CIRP data file contain a respondent's Social Security Number (or other ID as directed by the institution) **provided** the student gave HERI permission to release it by answering "yes" to the permission question. The SSN/ID is included to allow you to merge the CIRP data with other data files you might maintain (transcript files, results from locally administered follow-up surveys, etc.) for the purpose of performing deeper analyses of the results. The value of this Data File feature can be diminished, however, if a significant percentage of respondents do not give this permission.

To work around a permission problem without compromising the respondents' wishes for anonymity, HERI has developed the Data Merge service. If you send us a data base containing the information you want merged to the CIRP Data File, and the students' SSN/IDs, HERI will merge the files together using all the SSN/IDs provided to HERI by respondents. (If the file you provide also contains students' names, HERI can use them to match to the CIRP data in the event a respondent did not provide HERI with an SSN/ID.) After the files are merged, HERI will strip off the SSN/IDs of those respondents who did not give us permission to release them. (Per standard HERI practice, all names in the merged file will also be removed.)

The price for this service depends on the type of file provided and the type of merging desired. If the file is in SPSS System format or in labeled EXCEL format, and you wish merging done only by SSN/ID, the cost is \$75. If the file is in any other format and/or you wish merging done by student name in addition to SSN/ID, the cost is \$250.

### SPECIAL REPORTS

**COST: VARIABLE**

HERI can produce Institutional Profiles broken out on virtually any variable or combination of variables in the survey. For instance, you can order a report comparing students who attended different types of high schools, or by which major they intend to pursue. All Special Reports are delivered as EXCEL spreadsheets.

The cost of a Special Report is dependent on the amount of special programming necessary to produce it, but will not be less than \$125.

The following pages contain the Order Form for the CIRP Data Services. When completed, please FAX the form to the HERI office at 310-206-2228, or mail them to the address below. **Please do not send the order form to Data Recognition Corporation with your completed surveys.** Feel free to contact us at [heri@ucla.edu](mailto:heri@ucla.edu) or call 310-825-1925 if you have any questions.
