

## 2007 CIRP FRESHMAN SURVEY DATA SERVICES

In addition to the Institutional Profile and Data File you receive as part of your participation in the CIRP Freshman Survey (TFS), HERI can provide additional data services for a nominal fee. All requested files, reports, and resources will be delivered in electronic form and may be downloaded via an online portal. Following is the data service information and the order form for specific services.

### REPORT ON SPREADSHEET WITH EXTRA COMPARISON GROUPS

**COST: \$25.00 PER REPORT  
PLUS \$5.00 PER ADDITIONAL GROUP**

The standard CIRP Freshman Survey Institutional Profile that you receive displays your results with those of two comparison groups determined by the Stratification Cell to which HERI has assigned your institution. You may add to your ROS results as many as four ADDITIONAL comparison groups from the 37 groups noted on page two of this document.

### GROUP CODE REPORT (formerly "Special Breakout Report")

**COST: \$65.00 PLUS \$2.50 PER GROUP**

The Group Code Report provides Institutional Profiles based on each group code specified in the two "GROUP CODE" grids on the first page of the CIRP Freshman Survey. Up to 95 separate reports can be generated from each Group Code grid, as well as a summary report for all respondents at your institution. This report is delivered in spreadsheet format. (Please note that Group Code Reports are only available for those institutions that used the GROUP CODE grids.)

### PEER GROUP REPORT

**COST: \$65.00 PLUS \$5 PER INSTITUTION INCLUDED**

The two comparison groups included in your CIRP Freshman Survey Institutional Profile are determined by the Stratification Cell assigned to your institution by HERI (for more information about Stratification Cells, see Appendix A in our annual report on the CIRP, The American Freshman). However, you may wish to compare your CIRP Freshman Survey results to a different group of institutional peers or even to an aspirant group of institutions. Per your request, HERI can generate a special profile comparing your institution's results to the aggregated responses from any five or more participating institutions of your choice. The Peer Group Report is delivered in spreadsheet format and is virtually identical in appearance to an Institutional Profile report.

**The following Data Services are available from HERI but cannot be ordered using this form.**

**Contact HERI at [heridata@ucla.edu](mailto:heridata@ucla.edu) or call 310-825-1925 for further information or to place an order.**

### DATA MERGE

**COST: \$75.00 OR \$250.00**

Individual records in a CIRP data file contain a respondent's Social Security Number (or other ID as directed by the institution) provided the student gave HERI permission to release it by answering "yes" to the permission question. The SSN/ID is included to allow you to merge the CIRP data with other data files you might maintain (transcript files, results from locally administered follow-up surveys, etc.) for the purpose of performing deeper analyses of the results. The value of this Data File feature can be diminished, however, if a significant percentage of respondents do not give this permission.

To work around a permission problem without compromising the respondents' wishes for anonymity, HERI has developed the Data Merge service. If you send us a data base containing the information you want merged to the CIRP Data File, and the students' SSN/IDs, HERI will merge the files together using all the SSN/IDs provided to HERI by respondents. (If the file you provide also contains students' names, HERI can use them to match to the CIRP data in the event a respondent did not provide HERI with an SSN/ID.) After the files are merged, HERI will strip off the SSN/IDs of those respondents who did not give us permission to release them. (Per standard HERI practice, all names in the merged file will also be removed.)

The price for this service depends on the type of file provided and the type of merging desired. If the file is in SPSS System format or in labeled EXCEL format, and you wish merging done only by SSN/ID, the cost is \$75. If the file is in any other format and/or you wish merging done by student name in addition to SSN/ID, the cost is \$250.

### SPECIAL REPORTS

**COST: VARIABLE**

HERI can produce Institutional Profiles broken out on virtually any variable or combination of variables in the survey. For instance, you can order a report comparing students who attended different types of high schools, or by which major they intend to pursue. All Special Reports are delivered as EXCEL spreadsheets.

The cost of a Special Report is dependent on the amount of special programming necessary to produce it, but will not be less than \$125.

The following pages contain the Order Form for the CIRP Freshman Survey Data Services.

When completed, you may either 1) hit the "Submit Over Web" button to send your order directly to HERI via the internet, or 2) hit the "Print" button to print the form so you can FAX it to the HERI office at 310-206-2228 or mail it to the address on page five.

**Please do not send the order form to Our Scanning Center with your completed surveys.**

Feel free to contact us at [heridata@ucla.edu](mailto:heridata@ucla.edu) or call 310-825-1925 if you have any questions.
